

14 October 1965

U. S. Government
Washington, D.C.

Attention: Contracting Officer

Subject: Contract [redacted]
Task Order No. OZ(100,677)65-R

Reference: a) Basic Agreement, Section E, article 9 ASPR 7-402.2
(a) and (b) - "Limitation of Cost"

Gentlemen:

In accordance with reference a) entitled "Limitation of Cost", [redacted]
[redacted] hereby submits notification that the costs it expects to incur on subject contract in the next (60) days, when added to all costs previously incurred, will exceed 75% of the estimated cost now set forth in the contract schedule of [redacted] exclusive of fee.

It is anticipated that the total cost to the Government, exclusive of fee, will be greater than the estimated cost of subject contract task order. A revised estimate of total cost for performance under this CPAF task order is under discussion with the technical representative based on submission dated 1 October 1965 of Proposal No. 915031-B. While Items I, II and III for a total of [redacted] have been deleted from this proposal by mutual agreement, the remaining Items IV, V and VI totaling [redacted] including minimum fee, are being analyzed by [redacted] for resubmission.

A schedule showing anticipated expenditures, total costs and percentages of the estimates to present contract authorization, exclusive of the additional proposed costs above, follows:

Break-even Costs through 10/3/65
Anticipated Expenditure October -
Remaining for November -

U. S. Government
Contracting Officer

- 2 -

14 October 1965

Indications are, therefore, that contract funding at present rate of expenditure will be fully utilized by 12 November 1965.

Accordingly, it is requested of the Contracting Officer that consideration be given to providing additional funds under this task order prior to 12 November 1965 to assure continuity of effort.

Should you have any questions or desire any additional information, please feel free to contact the undersigned or

Very truly yours,
